

AADITHYA P K

B.Tech Computer Science & Engineering
aadithya.p.k0@gmail.com | +91 9539344676 | Kerala, India

EDUCATION

Thangal Kunju Musaliar College of Engineering, Kollam

B.Tech Computer Science & Engineering · 3rd Year · CGPA: 7.25 / 10

Expected Graduation: May 2027

Higher Secondary: Iritty Higher Secondary School

Graduated: 2023

TECHNICAL SKILLS

Languages: C, Java, JavaScript, Python

Databases: MySQL, MongoDB

Core Concepts: DSA, OOP, DBMS, Operating Systems, Computer Networks

PROJECTS

FinSage – Smart Financial Assistant

React.js, Node.js, Express.js, MongoDB, Web Speech API, Gemini API

- Developed a MERN-stack financial management application for expense tracking and budgeting.
- Implemented AI-assisted financial insights using Gemini API integration.
- Added voice-based expense logging functionality using Web Speech API.
- Designed MongoDB-based data storage for user transactions, savings goals, and budgeting records.

SEVANA – Circular Economy Donation Platform

Java, Spring Boot, PostgreSQL, Docker, JWT

- Built backend services using Spring Boot for NGO and donation management workflows.
- Implemented JWT-based authentication and role-based access control.
- Integrated PostgreSQL database for secure storage of user and donation data.
- Containerized backend services using Docker for simplified deployment and development setup.

AINS – Hospital Website Management System

Python Flask, MySQL, HTML, CSS, JavaScript

- Developed a web-based hospital management system for patient registration and appointment booking.
- Implemented token-based queue handling and doctor management modules.
- Connected Flask backend with MySQL database for storing patient and appointment records.
- Created admin dashboard functionalities for managing hospital operations.

Online Examination System

Java, JavaFX, MySQL

- Developed a desktop-based examination platform with separate student, teacher, and advisor modules.
- Implemented secure login and question management functionalities.
- Integrated MySQL database for storing examination records and results.
- Automated result generation and exam-related data handling.

CERTIFICATIONS & WORKSHOPS

The Joy of Computing using Python

Platform – NPTEL
